

Appln No.: 10/690,398  
Amendment Dated: March 24, 2006  
Reply to Office Action of January 10, 2006

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (currently amended) A composite comprising, in sequence,  
an outer layer comprising acrylic,  
a second layer comprising acrylonitrile-styrene-acrylate rubber terpolymer;  
a third layer comprising an ABS polymer; and  
~~optionally a polyacrylate fourth layer comprising an acrylic,~~  
~~wherein the layers include one or more layers having an improvement selected from among:-~~  
(a) ~~the improvement wherein the second layer comprises an acrylate-modified~~  
~~acrylonitrile-styrene-acrylate rubber terpolymer;~~  
(b) ~~the improvement wherein the third layer in is a modified ABS that further comprises a~~  
~~polymer modifier that decreases the softening of the ABS on contact with styrene and an~~  
~~acrylonitrile-styrene-acrylate rubber terpolymer; and~~  
(c) ~~the improvement wherein the fourth layer is present and is a polyacrylate.~~
2. (currently amended) The composite of claim 1, wherein the outer layer is composite includes a UV stabilized acrylic ~~outer layer~~.
3. (currently amended) The composite of claim 2, wherein the second layer of the composite ~~comprises includes~~ an acrylate-modified acrylonitrile-styrene-acrylate rubber terpolymer ~~second layer~~.
4. (currently amended) The composite of claim 3, wherein the third layer of the composite ~~includes~~ comprises ~~an modified ABS and a polymer modifier that decreases the softening of the~~ ABS on contact with styrene and an acrylonitrile-styrene-acrylate rubber terpolymer ~~third layer~~.

Appln No.: 10/690,398

5. (original) The composite of claim 4, wherein the polymer modifier in the third layer is a polyacrylate.
6. (original) The composite of claim 5, wherein the polymer modifier is polymethylmethacrylate.

7-10. (canceled)

11. (currently amended) A composite comprising, in sequence,

an outer layer comprising acrylic,

a second layer comprising acrylonitrile-styrene-acrylate rubber terpolymer and;

a third layer comprising an ABS polymer; ~~The composite of claim 1, wherein the third layer of the composite comprises includes modified ABS and a polymer modifier that decreases the softening of the ABS on contact with styrene and an acrylonitrile-styrene-acrylate rubber terpolymer third layer.~~

12. (original) The composite of claim 11, wherein the polymer modifier in the third layer is a polyacrylate.

13. (original) The composite of claim 12, wherein the polymer modifier is polymethylmethacrylate.

14-17. (canceled)

18. (currently amended) The composite according to claim ~~11~~, wherein the fourth layer is absent and the composite includes a polymer modified ABS third layer, and wherein the composite further comprises a fiber reinforced plastic substrate adhered to the third layer.

19. (original) The composite of claim 18, wherein the polymer modifier in the third layer is a polyacrylate.

20. (original) The composite of claim 18, wherein the polymer modifier is polymethylmethacrylate.

Appln No.: 10/690,398

21. (original) The composite of claim 18, wherein the composite further includes a UV stabilized acrylic top layer.

22. (original) The composite of claim 21, wherein the composite further includes a rubber modified acrylonitrile-styrene-acrylate rubber terpolymer second layer.

23. (currently amended) A composite according to claim 1, ~~wherein the acrylic fourth layer is present, and~~ wherein the composite further comprises a fiber reinforced plastic substrate adhered to the fourth layer.

24. (currently amended) The composite of claim 23, wherein the outer layer is composite further includes a UV stabilized acrylic ~~top layer~~.

25. (currently amended) The composite of claim 24, wherein the second layer of the composite further includes is a rubber modified acrylonitrile-styrene-acrylate rubber terpolymer ~~second layer~~.

26. (currently amended) The composite of claim 25, wherein the third layer of the composite further includes comprises a modified ABS and a polymer modifier that decreases the softening of the ABS on contact with styrene and an acrylonitrile-styrene-acrylate rubber terpolymer third layer.

27. (original) The composite of claim 26, wherein the polymer modifier in the third layer is a polyacrylate.

28. (original) The composite of claim 27, wherein the polymer modifier is polymethylmethacrylate.

29. (currently amended) The composite of claim 23, wherein the third layer of the composite further includes comprises a modified ABS and a polymer modifier that decreases the softening of the ABS on contact with styrene and an acrylonitrile-styrene-acrylate rubber terpolymer third layer.

30. (original) The composite of claim 29, wherein the polymer modifier in the third layer is a polyacrylate.

31. (original) The composite of claim 30, wherein the polymer modifier is polymethylmethacrylate.

32. (new) The composite of claim 11, wherein the outer layer is a UV stabilized acrylic.

Appln No.: 10/690,398

Reply to Office Action of January 10, 2006

33. (new) The composite of claim 1, wherein the third layer further comprises polycarbonate.

34. (new) The composite of claim 11, wherein the third layer further comprises polycarbonate.
